OpenProbe

A recruitment screening concept built around evidence.

Short tasks. Clear evidence. Human review.

THE PROPOSED CANDIDATE JOURNEY

01 Application check

Resume + job description.
Flag claims that need clarification.

02 Quick role quiz

10 timed questions on everyday familiarity.
Observe choices before and after crowd suggestions.

03 Workplace simulation

Explain a topic in chat.
Plan tasks and decide what to delegate to AI.

Evidence scorecard

Recruiter review + useful candidate feedback

Design proposal. Pilot and validation are still ahead.

APPLICATION CHECK

Start with the claims

Resume + job description

RESUME

Tools and skills

Work performed

Dates and outcomes

JOB DESCRIPTION

Role requirements

Tools and context

Expected responsibilities

Structured claim checks

Role relevance	What experience supports the role?
Claim consistency	Do dates, tools and responsibilities align?
Supporting evidence	Which resume excerpt supports the flag?

Output: a flag, its evidence and a reason to review

EXPERIMENT TO VALIDATE

Planted JD inconsistencies are a proposed test. A flagged claim needs checking; passing does not verify experience.

TIMED ROLE QUIZ

10 questions.
One tap at a time.

Tools, purposes and useful combinations.

1

Choose

Private first answer

2

See suggestions

Simulated group votes

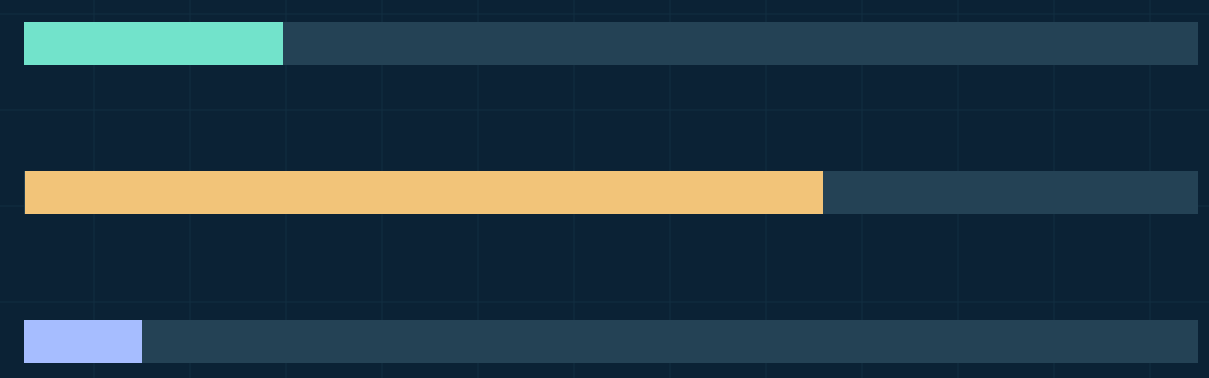

3

Decide

Keep or change

ILLUSTRATIVE QUESTION + SIMULATED VOTES

Which tool coordinates scheduled data workflows?

Answer key: Airflow

Log: answers, timing, session events

Observe accuracy and answer changes

Suggestions can be right or wrong. Participants know the group is simulated. Group influence remains experimental.

WORKPLACE SIMULATION

Explain. Delegate. Plan the work.

Short interactions drawn from a role-specific bank.

KNOWLEDGE TRANSFER / ILLUSTRATIVE BRIEF

Same month: sales $120k, refunds $20k.
Finance reports $100k after refunds.

SIMULATED COLLEAGUE

"Why are the figures different, and which should I use?"

A task board for AI delegation

Candidate assigns ownership, sequence and parallel work.

ILLUSTRATIVE PLAN / 15 MINUTE DEADLINE

ORDER	TASK	HANDOFF
1	Verify source facts	**Me**
2	Draft an update	**AI**
3	Check and approve	**Me**

Observe clarity, audience adaptation and delegation judgement. Accept multiple sound plans.

EVIDENCE SCORECARD

Make the evidence visible.

Each proposed score should point to an observation.

AREA	SUPPORTING EVIDENCE
Application checks	Flag + supporting resume excerpt
Technical familiarity	Initial and final quiz answers
Group influence	Answer changes; experimental
Communication	Explanation and clarification excerpts
AI delegation + planning	Task ownership, sequence and checks
Pattern recognition	Optional pilot; report separately

Proposed first build

Pilot with one data role. Compare AI scoring with independent human reviews and collect candidate feedback.

Accessible alternatives. Human review. Candidate feedback.
Talent reuse by choice. No IQ or personality claims.
